

LAVANYA KAMBLE

BSc Computer Science Student

PROFILE

I am a Second-Year Computer Science student at Royal Holloway, University of London, passionate about turning data into insight. I have experience in building responsive, interactive web applications using HTML/CSS, React and JavaScript. I am expanding my expertise in Python, Data Analysis, and Machine Learning. With strong problem-solving skills and a background in full-stack development, I am eager to apply AI-driven solutions to enhance web applications and user experiences.

EXPERIENCE

HYBRID WORK EXPERIENCE

TCS BFSI Data Lab Spring Internship

May 2025 - July 2025

- Built a foundational understanding of Data Science and Analytics with applications in the BFSI sector.
- Designed and implemented the React front-end for *Valora*, a financial chatbot project providing economic insights.
- Collaborated with a team to present the project to industry professionals.

HYBRID WORK EXPERIENCE

HSBC Financial Technology Work Experience

July 2022 - July 2022

- Attended in-person talks hosted at HSBC London focusing on topics, such as Digital Business Services, and Global Trade.
- Organised a light research and presentation on HSBC's sustainability roles with other attendees, before presenting.

PROJECTS

"Valora" | Created a financial chatbot project providing economic insights at the touch of your fingertips. Also included a dynamic chart display of various industries' current stocks and revenues, filtered via a dropdown.

"How Does Chaos Theory Affect Financial Markets?" | Organised research and a dissertation on Chaos Theory applied to two case studies of financial market crashes.
